It is our purpose to provide your child with a safe, caring environment along with a summer full of entertainment and incredible fun! In addition to the field trips we take both in and out of town, your child will be participating in exciting team building activities on campus led by our talented staff. Specialty camps are also included so that your child can choose to learn and participate in such activities as: extreme cooking, advanced art, a variety of sports, karaoke, movie-making, and so much more.

Since we have cannot control the weather and the extreme heat that comes during our wonderful summer, we will be hosting many on campus activities. This includes the use of our game room, furnished with foosball, air hockey, PlayStation, DDR, Guitar hero, and a Nintendo Wii. We also bring in entertainment to camp such as: magicians, musical performers, and animal experts. The rest of the week will be occupied with our usual activities including; swimming, water games, crafts, tours, relays, etc.

Please contact our office for further information and questions you may have.

This summer is sure to be packed full of amazing adventures and fun, so don't miss out.
