### Completing the Plaza...

It will not be too long and you will see the final stages added to the re-design of our outdoor plaza area. This will culminate with the installation of "shade sails" that will be installed to enable us to make full use of that area even in the hot summer weather.

It may seem odd to install such shades now when the heat of the season has past; however, doing this in the off -season has some advantages financially as well as allowing us to be fully prepared for next season.

In addition, I want to alleviate any concern over the finances for this project. We are using monies that are set aside and already accumulated in our reserve bank accounts for this purpose. We are very careful not to spend money that we do not have nor do we

dip into program monies for these sorts of projects.

It is our hope that these "shade sails" will provide an aesthetically pleasing way to provide shade coverage so that the plaza can be utilized fully.

His and Yours,

Pastor Marc
